

## Circus unARTiq - Technical Requirements – Outdoor Show

Artists:	2
Duration:	20 or 30 minutes.
Play ground:	Flat and sound ground in a rectangular area of at least 10 x 17m. Minimal clearance over the whole area: 11m. Possibility to put ground nails in the corners. (Alternative: mobile fixing points of a minimum weight of 1000 kg in the corners, e.g. water tanks or concrete blocks must be provided by the organizer.)
Audience:	For security reasons, the audience must be seated outside the performance space. Appropriate seating possibilities as well as material to secure the area (e.g. rope) must be provided by the organizer.
Transport:	Access with a van until close to the performance place must be guaranteed.
Sound:	An appropriate sound system is provided by the artists. Access to electricity 220V must be provided by the organizer.
Music:	Copyright regulations must be satisfied by the organizer. A list of the used music is available upon request.
Light:	For night shows, an adequate light setting and competent technical support must be provided by the organizer.
<b><u>Important:</u></b>	The attached technical plans are integral part of the technical requirements.
